

# Innovation! Quality! Value!

## Digicut 45MK2

The new Dumor Digicut 45 offers professional cutting quality in a small size machine! Dumor's safety cutting system. Cut width to 45 cm, cut length to 52 cm, cut depth to 5 cm. Motorized press, electric cutting, programmable backgauge with digital display, front and rear guarding, cabinet included, laser illuminated cut line, fully guaranteed and the best price anywhere.

The world's most advanced 52cm cutter at a super attractive price. This 4th generation cutter has all the features you need built in, no options needed!

On other cutters you would have to pay 1000s more for the same specifications: Full 52 cm x 6.5 cm cutting capacity, laser illuminated cutting line, full depth rear table, servo driven super accurate double guided backgauge with push out function, twice the accuracy of other cutters, stand with lockable cupboard included, not an expensive option, the most comprehensive digital backlit display ever, all settings visible on at one glance (no more scrolling a menu), 9 programs, 8 positions per program, electric press is programmable from 2000 n to 20000n force, no other compact cutter has this function, pre clamping function to pre-position the stack, electric cut with swing motion for a cleaner cut and less blade force, full IR guarding to en 1010-3, extra deep stainless steel front tables for cutting longer paper and ease of positioning, wide table fitment standard, stack your paper before and after cutting, blade safety changing tool, easy change cutting stick, ultra low maintenance requirement, the lowest cost of ownership, fully parts supported, spare parts are very low cost compared to other cutters.

## Digicut 52

## Cutters

Hydrocut 52

The most advanced hydraulic cutter! Dumor's safety cutting system, cut width to 52 cm, cut length to 52 cm, cut depth to 8 cm, hydraulic press, pressure adjustment to 30kN via valve with gauge, fast hydraulic cutting with swing cut, foot pedal preclamping, laser illuminated cut line, IR front guarding, wide tables standard, large digital display with all information on the screen, 9x8 programs, highest backgauge accuracy, fully guaranteed and the best prices anywhere.

## SRA3 Cardcutter

Finally a cost effective card cutter for all sizes of cards! Compact size, A4 or A3 versions, card from 120 gsm to 300gsm, cut width 85-89-90mm, programmable cut lengths 45/50/54/95/127, optional on line creasing/perfing, auto card feeder, double sheet separator, image compensation by mark reader, long life blades, Dumor's pre programmed cut and paste layout templates, fully guaranteed and the best prices anywhere.

## Auto Bar Creaser

Fully Automatic modular finishing system

The world's most modern bar creaser that anyone can afford! Hand feed or suction feed, modular and field upgradable! Buy what you can afford now, then upgrade! Full touchscreen display control panel, 2 speed settings, 16 crease positions, 16 nameable programs via qwerty keyboard on touchscreen, accuracy better than 1/10mm, tools can be set for shallow or deep crease, tools can be set facing up or down, outfeed perfing tools/creasing tools available, narrow crease bar optional, perfing bar optional, super quiet operation, fully guaranteed and the best prices anywhere.

Crease, cut, perf in one pass! Card to 400 gsm, to 595 wide, skew adjustment, infeed table, tool-less pressure adjustment, quickfit shafts and tools, digital print nylon counter tools with 3 crease widths, male/female combi tools for book covers, slitter, perfing tool all included in the price! Outfeed table with magnetic stops, variable speed, fully guaranteed and the best prices anywhere.

## CCP 650

## Creasers

High quality, low cost hand creasers that anyone can afford! 35 or 45 cm width, card to 400 gsm, plastic matrix is kind to digital print surfaces, 2 mechanical stops, optional 4 magnetic stops for odd shapes, all steel construction, sharp, deep crease

## Hand creasers

## Trident 33 Autofeed

with optional film trimmers

New and unique! The world's finest laminators for digital print! 4 sizes: Trident 36/46/66/110 cm. The trident series of auto feeding double / single side laminator allows you to do all possible kinds of lamination with just one compact flexible machine, with a really attractive price!

- Auto feeding of substrate to a3+ with sheet overlap control
- Single sided thin film / thin substrate
- Single sided thin film / thicker substrate with double sided print
- Double sided thick film, medium to thick substrate encapsulation
- Cold film pressure sealing

The trident has a totally new de-curling system with 2 distinct types of de-curler. A unique variable height rotating roller for de-curling of thicker stock with absolutely no scratching of the inner side, perfect for digital print. A variable height de-curling bar for sharper de-curling of thin stock that usually can't be de-curved properly. A bypass for straight through flow of double sided laminate. This, coupled with the best quality of soft silicone rollers, will absorb any digital print height variance on the sheet and eliminate bubbling. Make no mistake! This industrial duty machine is probably the best that money can buy and is made in the most modern production facilities.

## Trident 46

## Trident 110

## Digipouch 6 Roller

## Digipouch 10 Roller

with speed to 4 m / min.

The best pouch laminators money can buy and with affordable prices.

2 kinds: 6 roll and 10 roll, all steel construction, the best quality full silicone rubber rollers, heated rolls, digital LCD touch screen control with preset settings and auto cool down program, clamshell opening for cleaning, fast warm up, feed speed to 4 m / min, will also laminate hard covers, fully guaranteed and the best prices anywhere.

## Laminators

# Dumor!

## The Dumor guide to digital print finishing

The most advanced stapler folder. 2 heads, 4 heads optional, standard or loop staples, out of staples signal, silent operation, fast cycle time about 2 sec, A6 to A3 + infeed size, top stapling or saddle stapling, fold to 20 sheets 70 gsm, mark-less folding, counter, auto start program, fully guaranteed and the best prices anywhere.

## Staple Folder 20

The world's best value stapler. 1 head, standard or loop staples, will penetrate up to 30+ sheets, fast, multifunction table, saddle/flat position, side guides, front stops, heavy fully cast base, guarded staple area, fully guaranteed and the best prices anywhere.

## Heavy Duty Stapler

### Light Duty Corner Rounder

The world's best selling light duty corner rounder with multiple tool fitments! The Dumor corner rounder can cut into 5mm of paper and has many tooling options for round corner or half moon applications with a front guide, tools can be changed in seconds, fully guaranteed and the best prices anywhere.

### Heavy Duty Corner Rounder

The world's best table top corner rounder with an attractive price! This corner rounder will shear the paper up to 2 cm, integrated paper press for holding the stack steady, several knives available, standard fitment R6 blade, very stable fully cast construction, long lever arm, fully guaranteed and the best prices anywhere.

# Corner Rounders

### A3 HD Folder with tandem feeding

Now you have a choice! Before there were only the Uchida clone machines. Now you can buy at a far lower price the exact equivalent machine with all the same features! A5 to A3, friction feed, variable speed to 9000/hr, fully auto setting fold plates with all standard fold patterns preprogrammed, 36 custom program memories, empty bin sensor, skew adjustment, jam sensor, extra large fold rollers on ball bearings, fully covered fold plates for low noise set and preset counter, fully guaranteed.

### 7 Tool Corner Rounder

Motorized corner rounder, 7 tools on an index turret from r2 to r8, 60mm shearing capacity, paper press, adjustable guides, optional half moon cutter and guide to ca. 20mm.

# Folders

The world's fastest compact punch. This punch is better than any other compact punch, faster to 50 cycle/min, super accurate tools give you the best quality holes with no fluff or shards, all kinds of tools available, priced to beat any other punch, 36 cm width, 25 sheet clean cut, adjustable front and side guides, tool change over takes just seconds, de-pinnable, footpedal, Dumor's unique multicloser will close any kind of wire/spiral/comb, fully guaranteed and the best prices anywhere.

# Punch

### HD Punch

### Closing Device

### HD Punch Tools

The world's best table top binder with super attractive pricing, auto clamp and cover press-binding to B4 size, to 36 mm thick, slitting milling, padding function, programmable for: book holding time, loading time, cover clamp time and pressure, micrometer cover press adjustment, counter, standby mode, 1 glue roller, 1 scraper, fully guarded, fully guaranteed and with the best prices anywhere.

### Table Top Binder

### Digibind 60APSG

The same features as the 60AP but with 2 glue tanks and integrated side gluing! Incredible on a machine of this size and price!

# Binders

The most user friendly auto binder money can buy, specifically made for book for one applications, binding to A3, milling to 45 mm x 2 mm, padding to 58mm, suction cover feeder, dual glue pots with side gluing and 3 roller system, fully programmable for all functions, special adjustment for glue roller speed to bring up more or less glue, self setting glue cut off, self setting creasing rollers, self setting cover guides, book soft ejection, fume extraction, dual vortex chip extraction with exterior waste bag.

### M7

# New Products!

### Airjogger

The world's strongest airblast to separate your digitally printed sheets! From A6 to 350 x 500mm, to 5cm stack, adjustable air flow with 10 vents, adjustable jogging intensity, adjustable timer, adjustable inclination, table standing, optional floor stand, fully guaranteed.
